TEANECK, N.J., Feb. 5, 2025 /PRNewswire/ -- Cognizant (Nasdaq: CTSH), one of the world's leading professional services companies, today announced its fourth quarter and full-year 2024 financial results.

"I am deeply grateful to our employees for their commitment to our strategic priorities and rigorous execution, which drove fourth quarter revenue growth to the high end of our guidance range. We exited the year with momentum — closing a record 29 large deals during the year — highlighting the effectiveness of our strategy," said Ravi Kumar S, Chief Executive Officer. "In 2024, we accelerated investments in our AI-led platforms and added new capabilities with the acquisitions of Thirdera and Belcan, further strengthening and diversifying our portfolio. Our focus on client centricity, agility, and innovation is helping clients unlock the next wave of hyper productivity and enterprise-grade generative AI adoption."

For the full year 2024, our recently completed acquisitions contributed approximately 200 basis points to the year-over-year change in revenue.

"We ended the year strong, delivering Adjusted Operating Margin of 15.7% in the fourth quarter and 20 basis points expansion for the full year, above our guidance. Free cash flow represented more than 150% of net income, our highest quarter since Q3 2021," said Jatin Dalal, Chief Financial Officer. "We expect that our improved cost structure, achieved through the successful completion of our NextGen program, will help us sustain our pace of strategic investments in support of profitable growth. Our initial 2025 guidance calls for 3.5% to 6.0% constant currency revenue growth and 20 to 40 basis points of full-year Adjusted Operating Margin expansion."

### Bookings

Bookings in the fourth quarter increased 11% year-over-year. On a trailing-twelve-month basis, bookings increased 3% year-over-year to \$27.1 billion, which represented a book-to-bill of approximately 1.4x. During the quarter, Cognizant signed ten large deals, which are deals with total contract value of \$100 million or greater.

### Employee Metrics

Voluntary attrition - Tech Services on a trailing-twelve months basis was 15.9% as compared to 13.8% for the period ended December 31, 2023. Total headcount as of December 31, 2024 was 336,800.

### Return of Capital to Shareholders

The Company repurchased 1.8 million shares for \$140 million during the fourth quarter under its share repurchase program. As of December 31, 2024, there was \$1.2 billion remaining under the share repurchase authorization. In February 2025, the Company declared a quarterly cash dividend of \$0.31 per share, a 3% increase year-over-year, for shareholders of record on February 18, 2025. This dividend will be payable on February 26, 2025.

### First Quarter and Full-Year 2025 Guidance<sup>2</sup>

(all growth rates year-over-year)

- First quarter revenue is expected to be \$5.0 - \$5.1 billion, growth of 5.6% to 7.1%, or 6.5% to 8.0% in constant currency.
- Full-year 2025 revenue is expected to be \$20.3 - \$20.8 billion, growth of 2.6% to 5.1%, or 3.5% to 6.0% in constant currency.
- Full-year 2025 Adjusted Operating Margin<sup>3</sup> is expected to be from 15.5% to 15.7%, or 20 to 40 basis points of expansion.
- Full-year 2025 Adjusted Diluted EPS<sup>3</sup> is expected to be in the range of \$4.90 to \$5.06.

### Select Company, Client and Partnership Announcements

Cognizant is building a portfolio of capabilities combined with deep domain expertise to harness and advance an AI-led future. Cognizant's progress

has been accelerated through the following recent platform enhancements, partnerships and client wins:

### Platform Enhancements and Partnerships

- Announced a new collaboration with **Siemens Digital Industries Software** to integrate Siemens' PAVE360™ into Cognizant's software-defined vehicle (SDV) solution accelerator. This enhanced accelerator, featuring Siemens' Simcenter™ Prescan for sensor modeling and scenario-based testing, aims to meet rising customer demands by accelerating the SDV development cycle.
- Launched **Stores 360**, a comprehensive retail solution designed to streamline store operations, enhance employee productivity and improve customer experiences. Developed in collaboration with **ServiceNow**, the solution leverages the Cognizant Neuro® AI platform and generative AI-powered Now Assist solution to support key touchpoints in the retail value chain, enabling frictionless and efficient operations. It is designed to elevate retail store operations and improve frontline employee productivity and customer experience with integrated, automated, predictive and gen AI capabilities.
- Announced Cognizant's **Neuro® AI Multi-Agent Accelerator** and **Multi-Agent Service Suite**. These new offerings accelerate the development and adoption of AI agents, helping empower businesses to transform their business processes using AI agents for adaptive operations, real-time decision-making, and personalized customer experiences to support all facets of business, from IT and finance to sales and marketing.
- Announced a strategic alliance with **CrowdStrike**, a global cybersecurity leader, to drive enterprise security transformation by delivering cybersecurity services, powered by the AI-native CrowdStrike Falcon® cybersecurity platform. Cognizant will work to enable organizations to streamline security operations and threat mitigation, consolidate fragmented legacy point products, reduce the complexity of managing cybersecurity programs, and strengthen cybersecurity posture, leveraging Falcon® Next-Gen SIEM and Falcon® Cloud Security.
- Announced an expanded partnership with **Zscaler**, a cloud security company, with the goal of helping enterprises across industries simplify and transform their security posture with an advanced, AI-enabled zero trust cloud security platform to address evolving cyber threats. Cognizant and Zscaler will offer coordinated solutions and services designed to reduce overall security complexity, maximize security posture, and deliver comprehensive, cost-effective outcomes rapidly and at scale.
- Announced a new **FinOps1 Center of Excellence (CoE)**, built on **IBM's** leading FinOps software and Cognizant's cloud and developer platforms. Alongside the CoE announcement, Cognizant launched extensions of its Cognizant® Skygrade™ and Flowsource™ platforms that are designed to integrate with IBM Apttio, Turbonomic, watsonx.governance and watsonx Code Assistant for Z. The solutions bring together Cognizant's deep software engineering capabilities with IBM's powerful tools to help enterprise clients transition to modern architectures and streamline cloud management operations.
- Announced an expanded agreement with **Medidata**, a leader of clinical trial solutions to the life sciences industry, to provide support for Medidata's life sciences clients. As part of the multi-year renewal agreement, Cognizant is providing a dedicated team of Medidata Platform specialists to support their clients in pharmaceutical, biotech, medical device, contract research organizations, and patients using Medidata services.

### Client Wins

- Renewed strategic partnership with **McDonald's Corporation**, the world's leading food service retailer. As part of the multi-year agreement, Cognizant will focus on leveraging cutting-edge technology to enhance McDonald's staff enablement, customer experience, and operational efficiency. Cognizant plans to continue supporting McDonald's in various important enterprise areas, including Global Finance Systems and Human Capital Management. Cognizant will leverage its platforms, including Neuro® IT Operations and Skygrade™, to drive better observability, reliability and agility at McDonald's.
- Expanded its longstanding relationship with biopharmaceutical leader **Gilead Sciences**. Cognizant will provide AI-driven solutions to enhance customer service, employee engagement, and business value. Gilead is expected to enhance its efficiency through leveraging Cognizant's expertise in AI and advanced technology applications.
- Extended collaboration with **Savvas Learning Company**, a leading K-12 learning solutions provider, to help optimize its back-office IT operations. A trusted Savvas partner since 2019, Cognizant has entered into a multi-year agreement with the company through which Cognizant Flowsource™ will aim to enhance platform engineering capabilities, improve efficiencies, and drive automation for Savvas. The collaboration also plans to focus on efficient order management, in an effort to ensure timely delivery of services to the company's diverse customer base.
- Announced a collaboration with **Beyond Bank Australia**, one of Australia's largest customer-owned banks, to help transform the digital banking experience. The collaboration aims to enhance operational resilience, streamline processes and improve customer experience through the implementation of innovative technology solutions. Additionally, this collaboration seeks to modernize the bank's IT infrastructure, establish a Security Operations Centre (SOC) and strengthen vendor assurance frameworks to help align with the Australian Prudential Regulation Authority (APRA) standards.

## Forward-Looking Statements

*This press release includes statements that may constitute forward-looking statements made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995, the accuracy of which is necessarily subject to risks, uncertainties and assumptions as to future events that may not prove to be accurate. These statements include, but are not limited to, express or implied forward-looking statements relating to our strategy, strategic partnerships and collaborations, competitive position and opportunities in the marketplace, investment in and growth of our business, the pace and magnitude of change and client needs related to generative AI, the effectiveness of our recruiting and talent efforts and related costs, labor market trends, the anticipated amount of capital to be returned to shareholders and our anticipated financial performance, matters related to the Belcan acquisition and other statements regarding matters that are not historical facts. These statements are neither promises nor guarantees, but are subject to a variety of risks and uncertainties, many of which are beyond our control, which could cause actual results to differ materially from those contemplated in these forward-looking statements. Existing and prospective investors are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date hereof. Factors that could cause actual results to differ materially from those expressed or implied include general economic conditions, the competitive and rapidly changing nature of the markets we compete in, our ability to successfully use AI-based technologies, the competitive marketplace for talent and its impact on employee recruitment and retention, risks related to our NextGen program and the ultimate benefits of such program, legal, reputational and financial risks resulting from cyberattacks, changes in the regulatory environment, including with respect to immigration, trade and taxes, and the other factors discussed in our most recent Annual Report on Form 10-K and other filings with the Securities and Exchange Commission. Cognizant undertakes no obligation to update or revise any forward-looking statements, whether as a result of new information, future events, or otherwise, except as may be required under applicable securities law.*

## About Non-GAAP Financial Measures and Performance Metrics

### Non-GAAP Financial Measures

*To supplement our financial results presented in accordance with GAAP, this press release includes references to the following measures defined by the Securities and Exchange Commission as non-GAAP financial measures: Adjusted Operating Margin, Adjusted Diluted EPS, free cash flow, net cash and constant currency revenue growth. These non-GAAP financial measures are not based on any comprehensive set of accounting rules or principles and should not be considered a substitute for, or superior to, financial measures calculated in accordance with GAAP, and may be different from non-GAAP financial measures used by other companies. In addition, these non-GAAP financial measures should be read in conjunction with our financial statements prepared in accordance with GAAP. The reconciliations of our non-GAAP financial measures to the corresponding GAAP measures should be carefully evaluated.*

*Our non-GAAP financial measures Adjusted Operating Margin and Adjusted Income from Operations excludes unusual items, such as NextGen charges. Our non-GAAP financial measure Adjusted Diluted EPS excludes unusual items, such as NextGen charges, net non-operating foreign currency exchange gains or losses and the tax impact of all the applicable adjustments. The income tax impact of each item excluded from Adjusted Diluted EPS is calculated by applying the statutory rate and local tax regulations in the jurisdiction in which the item was incurred. Free cash flow is defined as cash flows from operating activities net of purchases of property and equipment. Net cash is defined as cash and cash equivalents and short-term investments less short-term and long-term debt. Constant currency revenue growth is defined as revenues for a given period restated at the comparative period's foreign currency exchange rates measured against the comparative period's reported revenues.*

*Management believes providing investors with an operating view consistent with how we manage the Company provides enhanced transparency into our operating results. For our internal management reporting and budgeting purposes, we use various GAAP and non-GAAP financial measures for financial and operational decision-making, to evaluate period-to-period comparisons, to determine portions of the compensation for our executive officers and for making comparisons of our operating results to those of our competitors. Accordingly, we believe that the presentation of our non-GAAP measures, which exclude certain costs, when read in conjunction with our reported GAAP results, can provide useful supplemental information to our management and investors regarding financial and business trends relating to our financial condition and results of operations.*

A limitation of using non-GAAP financial measures versus financial measures calculated in accordance with GAAP is that non-GAAP financial measures do not reflect all of the amounts associated with our operating results as determined in accordance with GAAP and may exclude costs that are recurring such as our net non-operating foreign currency exchange gains or losses. In addition, other companies may calculate non-GAAP financial measures differently than us, thereby limiting the usefulness of these non-GAAP financial measures as a comparative tool. We compensate for these limitations by providing specific information regarding the GAAP amounts excluded from our non-GAAP financial measures to allow investors to evaluate such non-GAAP financial measures.

#### Performance Metrics

Bookings are defined as total contract value (or TCV) of new contracts, including new contract sales as well as renewals and expansions of existing contracts. Bookings can vary significantly quarter to quarter depending in part on the timing of the signing of a small number of large contracts. Our book-to-bill ratio is defined as bookings for the trailing twelve months divided by revenue for the same period. Measuring bookings involves the use of estimates and judgments and there are no independent standards or requirements governing the calculation of bookings. The extent and timing of conversion of bookings to revenues may be impacted by, among other factors, the types of services and solutions sold, contract duration, the pace of client spending, actual volumes of services delivered as compared to the volumes anticipated at the time of sale, and contract modifications, including terminations, over the lifetime of a contract. The majority of our contracts are terminable by the client on short notice often without penalty, and some without notice. We do not update our bookings for subsequent terminations, reductions or foreign currency exchange rate fluctuations. Information regarding our bookings is not comparable to, nor should it be substituted for, an analysis of our reported revenues. However, management believes that it is a key indicator of potential future revenues and provides a useful indicator of the volume of our business over time. Large deals are defined as deals with a total contract value of \$100 million or greater.

(c) Presented below are the tax impacts of our non-GAAP adjustment to pre-tax income for the:

(in millions)	Three Months Ended December 31,		Twelve Months Ended December 31,	
	2024	2023	2024	2023
Non-GAAP income tax benefit (expense) related to:				
NextGen charges	\$ 13	\$ 10	\$ 34	\$ 59
Foreign currency exchange gains and losses	(1)	(4)	(4)	(6)

The effective tax rate related to non-operating foreign currency exchange gains and losses varies depending on the jurisdictions in which such income and expenses are generated and the statutory rates applicable in those jurisdictions. As such, the income tax effect of non-operating foreign currency exchange gains and losses shown in the above table may not appear proportionate to the net pre-tax foreign currency exchange gains and losses reported in our unaudited consolidated statements of operations.

#### Reconciliations of Net Cash (Unaudited)

(in millions)	December 31, 2024	December 31, 2023
Cash and unrestricted cash equivalents	\$ 2,231	\$ 2,621
Short-term investments	12	14
Less:		
Short-term debt	33	33
Long-term debt	875	606
Net cash	\$ 1,335	\$ 1,996

The above tables serve to reconcile the Non-GAAP financial measures to the most directly comparable GAAP measures. Refer to the "About Non-GAAP Financial Measures and Performance Metrics" section of our press release for further information on the use of these Non-GAAP measures.
